- Conference circular 2 -

Dear Colleagues,

The CSAIO Scientific Committee is pleased to invite you to its 18th annual Conference of Staff Associations of International Organisations:

12 and 13 October 2017

INTERPOL

200 quai Charles de Gaulle 69006 Lyon, France

An informal session takes place on Thursday 12 morning. It gives the participants the opportunity to follow up on the issues discussed the previous year.

The 18th Conference of Staff Associations of International Organisations is a follow-up to the previous conferences organised annually since 2000. This series of conferences aims to bring together staff representatives from international organisations whose headquarters or main offices are in Europe to discuss topics of common interest.

For more information on the CSAIO, please check the following site: <http://csaio.web.cern.ch/>.

Contact

Should you have a question during the Conference, do not hesitate to contact the CSAIO Scientific Committee (A. Demarle or J. Lahaye).

For logistic matters, Susana Espinosa (+33 (0)6 86 33 20 37) will be at your disposal.

This year's topics

A. Pension reform

The International Organisations have not been able to escape the general predilection for pension regime reform by their Member countries in recent years. We invite staff representatives who have had to deal with these reforms to share their experience, and to inform us in particular of the population affected (serving officials and/or new staff), the revised parameters, and the safeguard or countermeasures taken.

B. Health and safety of staff

It is the duty of the International Organisations to ensure the protection of their staff in terms of their health and their well-being at work (medical examinations, work accidents and occupational illnesses, consideration of psychosocial risks, etc.), as well as their physical safety (protection of premises, high-risk missions, etc.). Against a backdrop of constantly increasing stress at a time when security is a major issue, we propose a review of the measures taken in these areas by our Organisations.

C. Facilities provided for staff representative bodies

The staff representative bodies, which are an essential partner in the proper functioning of our Organisations, are granted a series of rights and facilities which allow them to successfully fulfil their mandate. The extent of these rights and facilities varies significantly between International Organisations. We will examine the range of human and material resources, and rights to expenses, available to staff representatives.
